DVIGear Debuts Digital Connectivity Products

**New DVI and HDMI Distribution Products are Perfect Solutions
 for all Home Theater Installations**

Indianapolis, IN – September 9, 2005 – DVIGear, a leading provider of digital connectivity solutions, announced a suite of new connectivity products at the CEDIA Expo that offer greater performance and versatility for home theater designers, installers and enthusiasts.

“Our customers have asked us for better solutions to distribute high quality DVI and HDMI signals,” said Steven Barlow, president of DVIGear. “With the emergence of 1080p as the high definition resolution of choice, we felt that we had to raise the bar for higher performance. So, we’ve engineered an entirely new product line from the ground up that is compatible with 1080p resolution and beyond.”

DVI Distribution Products

Designed to meet the most demanding installation requirements, DVIGear’s new DVI distribution products deliver superior performance and reliability for a broad range of PC and HDTV applications. Five (5) models are now available, including: a high performance DVI Repeater, a 2x1 and 4x1 DVI Switcher, as well as a 1x2 and 4x1 DVI Splitter. All units are HDCP compliant and are compatible with the full spectrum of single-link DVI signals with pixel rates up to 165 MHz (1.65 GBit/sec.), which allows them to accept HDTV signals with resolutions up to 1080p and PC resolutions up to 1920x1200 / 60Hz. These units are housed in a rugged, yet extremely compact enclosure and come with a UL-rated external AC power supply. All units are FCC Class B rated, and are ideal for either residential or commercial use.

Model Number	Product Description	Inputs	Output	Ship Date	List Price	Comments
DVI-7160	Repeater DVI + HDCP	1	1	Now!	\$249	Extends DVI ≥ 75 meters
DVI-5112	Splitter DVI + HDCP 1x2	1	2	9/26/05	\$299	
DVI-5114	Splitter DVI + HDCP 1x4	1	4	9/26/05	\$399	
DVI-4121	Switcher DVI + HDCP 2x1	2	1	Now!	\$249	Includes mini IR remote
DVI-4141	Switcher DVI + HDCP 4x1	4	1	9/12/05	\$349	Includes mini IR remote

Note: For optimum performance, use DVIGear’s Super High Resolution™ DVI and HDMI cables.

HDMI Distribution Products

DVIGear also introduced a new range of five (5) HDMI distribution products consisting of: an HDMI Repeater, a 1x2 and 1x4 HDMI Splitter, as well as a 2x1 and 4x1 HDMI Switcher. Similar in performance and capabilities to DVIGear's new DVI distribution products, these units are HDCP compliant and provide exceptional performance and reliability for wide range of HDTV and PC applications. In addition, they are compatible with the full spectrum of HDMI signals with pixel rates up to 165 MHz (1.65 GBit/sec.), which allows them to accept HDTV signals with resolutions up to 1080p and PC resolutions up to 1920x1200 / 60Hz. These units are housed in a rugged, yet extremely compact enclosure and come with a UL-rated external AC power supply. All units are FCC Class B rated, and are ideal for either residential or commercial use.

Model Number	Product Description	Inputs	Outputs	Ship Date	List Price	Comments
DVI-7360	Repeater HDMI	1	1	Nov.05	\$199	Extends HDMI \geq 75 meters
DVI-5312	Splitter HDMI 1x2	1	2	Nov.05	\$299	
DVI-5314	Splitter HDMI 1x4	1	4	Nov.05	\$349	
DVI-4321	Switcher HDMI 2x1	2	1	Nov.05	\$249	Includes mini IR remote
DVI-4341	Switcher HDMI 4x1	4	1	Nov.05	\$349	Includes mini IR remote

Note: For optimum performance, use DVIGear's Super High Resolution™ DVI and HDMI cables.
