

Versatile Design – The DN-100-RMK Rack Mount Kit is designed to support DVIgear’s range of DisplayNet® HDMI 10GbE Transmitters and Receivers. Two products may be mounted side-by-side and either forward-facing or rear-facing. The units may be positioned in three different locations: Front, Middle, and Rear. These features allow the units to be mounted two per rack shelf in a variety of configurations, which provides increased flexibility when designing and installing systems.

MOUNTING HARDWARE INCLUDED

For DisplayNet Units	8x 3x8 mm Phillips Flathead Machine Screws
----------------------	--
