DVIGear Releases DisplayNet 3.0 Software Update

Update Introduces Security and Performance Enhancements to DisplayNet

Marietta, Georgia, USA – April 6, 2021 – DVIGear, a leading manufacturer of digital connectivity products, has released the latest version of their DisplayNet® Software, DisplayNet 3.0. Freely available to all DisplayNet customers, this update includes substantial security enhancements alongside updates to the SDVoE® platform and numerous user experience improvements.

Enhanced Security Management

DisplayNet 3.0 comes with an array of advanced security features, including support for API access via SSH; TLS support with Integrated Certificate Management; and Device Claiming, which protects systems from Rogue Server Attacks. These features enhance the security of DisplayNet and offer a layer of protection that surpasses the industry standard for SDVoE systems.

The Latest SDVoE Platform Updates

DisplayNet 3.0 ships with the latest versions of essential SDVoE platform components, including SDVoE API 3.1.2 and firmware 4.1.2 for DN-200 and DN-150 Series hardware. These updates include improvements to device reliability and compatibility, as well as the latest version of the SDVoE API specification. DVIGear is proud to be a Contributing Member in the SDVoE Alliance. DisplayNet 3.0 takes full advantage of all of the latest improvements to the SDVoE platform, and provides system integrators and end-users with unparalleled performance, robust security, and unmatched flexibility.

Other Improvements

In addition to enhanced security and SDVoE platform updates, DisplayNet 3.0 includes a number of various improvements and enhancements to existing functionality. These improvements include enhancements to overall UI responsiveness, optimized MultiView layout creation, a new splash-screen for an improved loading experience, and a new Setup Wizard to help users configure their systems to meet security requirements.

The DisplayNet 3.0 Software Update is available now for free to all existing DisplayNet customers. For more information, or to learn more about DisplayNet, please reach out to your DVIGear Representative, or visit our website at DisplayNet.com.
